## **P. Joseph Lehman, Inc., Consulting Engineers Announces New Satellite Office Location in the Pittsburgh Area**

P. Joseph Lehman, Inc., Consulting Engineers is very pleased to announce the opening of our new Pittsburgh satellite office. This office will be located in Presto, PA, a suburb of Pittsburgh. In addition to growing our firm, this office will also allow us to better serve Pennsylvania Department of Transportation Engineering Districts 11-0 (Pittsburgh) and 12-0 (Uniontown) more efficiently. We are opening this office to become more efficient during the PA Turnpike Project we are now working on. This project involves the total reconstruction of a section of PA Turnpike that includes the Pittsburgh Interchange. Also by opening this new location we hope to expand our services by providing engineering and environmental solutions to clients, more easily, in Ohio and West Virginia.
