LEHMAN ENGINEERS WELCOMES HARIVADAN PARIKH TO THE FIRM

Harrisburg, Pennsylvania - P. JOSEPH LEHMAN, Inc., Consulting Engineers is very pleased to announce that Mr. Harivadan Parikh, P.E., has joined the firm as the Eastern Regional Director, responsible for all operations out of the new downtown Harrisburg office. Harivadan brings 47 years of specialized experience and project management with highway bridges to the firm. He will manage all operations out of the new office at 800 North Third Street, Harrisburg.

As the District Bridge Engineer for the Pennsylvania Department of Transportation (PennDOT), Engineering District 8-0, Harivadan was

responsible for the management of inspection and maintenance programs for approximately 3,400 state bridges within Franklin, Adams, York, Lancaster, Cumberland, Perry, Dauphin, and Lebanon Counties. Charged with ensuring the safety of the travelling public, Harivadan was responsible for selecting particular bridges for preservation, rehabilitation, and replacement. This included providing sound and innovative solutions in emergency situations involving bridge structures. Management of all bridge-related design activities performed by consultants and resolution of all bridge-related technical and non-technical inquiries from contractors, engineers, general public, legislators, and news media were also his responsibility.

Harivadan is very well-known across Pennsylvania for his involvement in high profile bridge projects and his technical knowledge of bridges, including unique and specialized structures. He brings additional depth and technical skills to the ever-growing team of bridge professionals at Lehman Engineers. He earned his Bachelor of Science Degree in Engineering from Gujarat University, Ahmedabad, India and his Master of Science Degree in Engineering from Worcester University, Worcester, Massachusetts. He currently resides in Mechanicsburg, PA with his wife Nutan. His Daughter Priya is a clinical pharmacist at Baltimore Hospital.
