and asbestos, lead, mold, and air quality projects.

Catherine received his Bachelors of Science in Chemical Engineering, a Masters degree in Environmental Pollution Control, and a Masters degree in Public Administration from The Pennsylvania State University. He currently resides in Phillipsburg, PA.

Kaleb has been with the firm as a Project Geologist since 2012. He is

the primary Professional Geologist responsible for the procurement, scheduling, and oversight of subcontractors for the collection of soil samples, installation of various types of environmental wells, aquifer testing, and water sampling. Kaleb has also been the primary author for Site Characterization Reports, Remedial Action Progress Reports, Risk Assessment Reports, Remedial Action Closure Reports,

Underground Storage Tank Closure Reports, and Phase I and Phase II reports.

Hammond received his Bachelor of Arts in Environmental Geology from Lock Haven University. He currently resides in Bedford, PA.

P. Joseph Lehman, Inc., Consulting Engineers is made up of a growing team of highly-skilled professionals and experienced specialists in transportation design, structural engineering, site development, surveying, environmental science, environmental characterization and remediation, and geology and construction services. Lehman Engineers currently maintains offices in Hollidaysburg, Bedford, and Harrisburg, PA.
